1. Purpose of the admission statement: enabling choices to be made in full knowledge of the facts by providing information on the financial consequences of the admission

Hospitalisation always leads to costs. As a patient some of the choices you make have a significant impact on the overall cost of your stay in hospital. You make these choices in this admission statement. It is therefore very important that before completing and signing this statement you carefully read the explanatory document you received along with it.
 If you have any questions about your hospitalisation, please contact **Admissions at 02 764 15 51**. If you have already received the invoice by that time, please contact the Patient Contact Service at **02 764 15 70** instead.

2. Choice of room

The possibility of choosing my doctor is not restricted in any way by the type of room I choose.

I would like to be admitted and treated:

Without fee supplements and without room supplements in a shared room (standard = two beds)

In a private room
 with a room supplement of 199 /day + any accompanying person's charges
 I understand that if I stay in a private room the treating doctors may invoice a **fee supplement of up to 300%** on top of the legal rate for medical services.

3. Admission of a child accompanied by a parent

I would like my child, who I am accompanying, to be admitted and treated at the legal rate, **without room supplement or fee supplement. I understand that we will be assigned to a two-bed room or a shared room.**

I have requested that my child, who I am accompanying, be admitted and treated in a **private room (without room supplement)**. I understand that if my child stays in a **private room** the treating doctors may invoice a **fee supplement of up to 300%** on top of the legal rate for medical services.

The **costs of my stay as an accompanying parent (including bed, meals and drinks)** will be **payable by me** at the rate stated in the list of prices of standard goods and services.

4. Advance payment

I pay euros in advance for my stay.

This signed admission statement is a valid receipt for the advance payment. The advance payment will be deducted from the total amount of the patient's final invoice.

5. Invoicing conditions

All hospital charges will be invoiced by the hospital. Never make a direct payment to the doctor!
 The invoicing conditions: the payment method, payment term, consequences of missing a payment deadline and related matters are printed overleaf. Every patient is entitled to receive information on the financial consequences of hospitalisation and the type of room chosen. Every patient is entitled to receive information from the doctor in question about the fees that will be payable for the scheduled medical treatment.

I have received, as an appendix to this statement, an explanatory document stating the room and fee supplements. It includes the list of prices of goods and services offered by the hospital. I understand that not all costs can be anticipated.

Done in duplicate in Woluwe-Saint-Lambert on for an admission beginning on at am/pm.
